## ACADEMIC RESULTS AT HIGH LEVEL

Once again the School achieved a high standard of results in the 1964-65 academic year. Throughout all grades, 63 boys or 21.6% of the total enrollment attained first class honours; the failure rate was 10.9% compared to 11.2% last year and the Ontario average of approximately 20%. Both staff and students are to be congratulated for this fine performance.

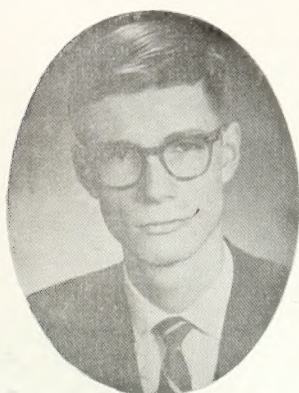

Upper VI (Grade 13) students failed only 11 papers out of 186 attempted which means that 94% of papers written were successfully passed. George Vanderburgh of Toronto with 8 Firsts, and John Cameron of Almonte with 10 Firsts, obtained Ontario Scholarships. Vanderburgh was also awarded the Geoffrey P. E. Clarkson Admission Scholarship to the University of Toronto; and Cameron — a scholarship at Dalhousie University.

Highest average in the School was attained by David Wilson in Form VA (Grade 11) with 91.4%, closely followed by Fabio Guzman of Lower VI (Grade 12) with 89.1%. Fabio is a brother of Dr. Tony Guzman '54 and Omar Guzman '62.

It is interesting to note that on Prize Day this year no less than three Headmasters Medals were awarded outstanding students graduating in 1964, which were the first awards since 1959. These medals were presented to D. J. Bichan, R. D. Benveniste and J. P. Wyse.

## SUMMER BUSY TIME AT ST. ANDREW'S

In many ways the summer holidays are the busiest time for the administrative staff at the School. Soon after the boys leave in June, a whirlwind clean up job starts in preparation for the Argonaut Football Team's summer training camp. This two-week period brings many visitors and St. Andrew's always likes to look its best. One Sunday, when an intra-squad scrimmage was being held, the School was literally invaded by upwards of 3,000 people, causing an unprecedented traffic jam. All parking areas were completely filled and cars double parked all down the drive to the gates and even out on Yonge Street. For a time no one could get in or out! Such is the loyalty of Argonaut fans — oh, well, maybe next year??

This summer, the drive and most of the roadways throughout the grounds received a new "black top" surface, giving us a fresh, smooth new look. Diseased elm trees on the quad have been removed and replaced, and others given their annual pruning. Fascinating little ditch diggers and cable layers have dug up and relaid the underground wiring on the drive and quad — for

the first time since the present School was built in 1926. The exterior stone steps of Dunlap Hall, Flavelle House and Memorial House have been rebuilt — should be no more complaints of turned ankles or skinned shins! In fact, the grounds and buildings have never looked better — well worth a visit just to see them.

Indoors much has been accomplished, too. Fresh paint where needed and refinished floors. Major renovations have been carried out to boys' rooms on the lower floors of Flavelle and Memorial House to make them more functional and attractive, and new furnishings installed similar to those in Fourth House.

In Dunlap Hall, the Bookroom has a new and larger location in the basement which will make for much easier handling of this essential activity.

In the final week before the Fall term starts, the School is headquarters for a two day convention of Toronto Public School principals and officials. So, with one thing or another, there is plenty to keep everyone busy during the "holidays".

OLD BOYS' ANNUAL DINNER

AT ST. ANDREW'S COLLEGE, AURORA, ONTARIO

# SAC FOUNDATION ANNOUNCED ON PRIZE DAY

Prize Day, June 9th, dawned with overcast skies and showers continued throughout the morning, but fortunately for Mr. MacPherson's careful arrangements for ceremonies to take place on the quad, they cleared away by lunchtime. All available seating was taken up as the large number of parents, Old Boys, and other friends of the School, as well as the student body, gathered to honour those who had outstanding accomplishments during the School year.

The Headmaster, Mr. Coulter, opened the proceedings and the following is an extract from his speech —

"This past year has been one of solid educational achievement. Although there is no time today to report in detail, I should like to assure you that we have maintained a standard of excellence in the classroom, in our very rich extra-curricular programme, and in residence life. I have been especially impressed by the industrious and co-operative effort of our masters, our non-teaching staff and our student body. Although our tutorial system occasionally breaks down through sheer lack of time, I cannot remember a year when boys have received as much individual attention as they have this past year.

I think you know that last year's Grade 13 class achieved brilliantly on their departmental examinations. Although the marks of this year's graduating class may not be quite so high, they will still be good, and nearly all of our graduating students will go on to university. I think it is worth special mention that we are achieving good results at the Grade 13 level, but at the same time keeping a low failure rate throughout the whole school. Last year our failure rate from Grade 7 to Grade 12 was slightly over 11%, and we are expecting this year's record to be at least as good.

You should also know that the academic staff have spent countless hours this year in a revaluation of our total educational process. As an independent school, we are fortunate to have masters with good independent minds and with a strong desire to seek improvement. Most of us have a fairly clear idea of desirable educational ends, but the best means of achieving these ends needs to be constantly debated. Because the human personality is too involved with intangibles that defy precise analysis, education is at once both frustrating and fascinating.

One of our problems at the mo-

ment is that our extra-curricular programme has become too good, or at least too busy. We have recently appointed two committees, one to study our total sports programme, and another to investigate all the other parts of our varied non-classroom activities. We intend to adhere to our strong philosophy of participation, but we must also give our students and masters time to relax and time to think.

As far as the future is concerned, we are committed to a standard of excellence in all phases of education. We shall relentlessly preserve the worthy traditions of this School, but we reserve the right to break with traditions that become outmoded in a changing world.

May I report two or three innovations for next year. Mr. Macfarlane will teach a Grade 10 geography course in French. We are planning a new emphasis on instrumental music to supplement our excellent choral work. We are devising new courses in Religious Knowledge in order to encourage boys to search more diligently for spiritual truths than has perhaps been the custom through our scripture courses. We are intensely interested in the proposed new Grade 13 year with its greater emphasis on quality rather than on quantity. In fact, we hope to be included as a school which will do some advance research in this whole new approach.

It is our conviction that independent schools ought to be giving more leadership to education in this province than has been the case in the past. Our lack of leadership stems from two main causes. First, our masters are so busy being good in the classroom, taking a very active part in extra-curricular activities and supervising and advising boys in their residence life that they have precious little time left for thought and experimentation; second, we have practically no funds available for research, even to free a master for a period of time so that he can pursue a new project.

As an independent school, we have always cherished our independence to the point where we have never asked the Provincial Government for financial help. But perhaps the time has come when we must, like everybody else, seek funds from the Government. Even though we were not to ask for regular grants, we might seek limited funds for research or other special purposes; or, I am sure, we could make our parents happy if they were allowed to claim part of their double educational expense as deductions for income tax

purposes. Whatever changes we may make in the future, we shall certainly strive to increase the already substantial contribution that independent schools are making to our free Canadian society.

Although it was my privilege to say a few special words to the graduating class in chapel last Sunday evening, may I again close this report with reference to them. Both from the standpoint of broad educational achievement and good leadership to the rest of the School, you have been a worthy class. You Prefects have given excellent leadership throughout the year, and you other Upper Sixers have not been far behind in your service to the school. I firmly believe that as a class your future will be bright in achievement and service, and I know that you will always be part of St. Andrew's College".

Mr. J. K. Macdonald, Chairman of the Board of Governors, followed with an announcement of the establishment of the St. Andrew's College Foundation —

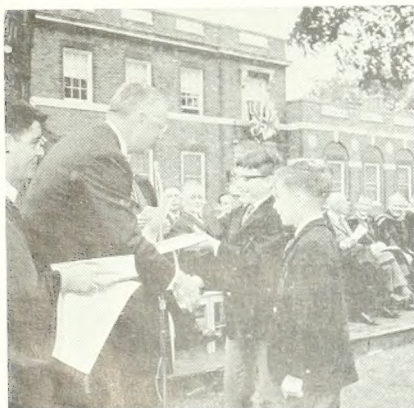

"It is on this occasion of Prize Day that I wish to make an important announcement — one that I know will be of great interest to every parent, Old Boy and to all other friends of the School.

For some time, the Board of Governors has been conscious of the need for a continuing effort to maintain a flow of funds for projects essential to the present and future well-being of the School.

To meet this need, I can now announce to you the establishment of the St. Andrew's College Foundation. Set up as a non-profit educational trust, the new Foundation will consolidate all philanthropic effort on behalf of St. Andrew's on a permanent basis. Its affairs are managed by a Board of seven Trustees who serve without remuneration. It has an office here at the College and an Executive Director has already been appointed, Mr. James H. Hamilton. I have no doubt that quite a few of you know Jim, since he has had extensive business experience and, I am happy to say, is an Old Boy of the School.

The Foundation has acquired a nucleus of a capital fund representing endowments and gifts held by the College. Of course, the income from this is already being put to good use, mostly for scholarship aid, and much more is required to carry out the aims and objectives that have been set out for it.

(continued on Page 3)

T. George Armstrong, Chairman of Executive Committee of the Board of Governors, assisted by Mr. Guggino, presents prizes for General Proficiency in Form Lower II to David Fisher and Philip Tayler.

Hon. James C. Auld, Minister of Travel & Publicity for Ontario. David Love, Captain of winning Wallace Clan, and Michael Perley examine the Housser Trophy for Inter-Clan competition.

The Macdonald Medal, presented by the Old Boys Association in Honour of Dr. Macdonald to the Boy Most Distinguished in studies and athletics taken together, is received by David Hart from Mr. J. K. Macdonald, Chairman of the Board of Governors.

## PRIZE DAY (cont.)

What are some of these needs of the School to which the Foundation can contribute?

With the generous support and hard work of many individuals, St. Andrew's completed a new building and renovation program three years ago. Part of the capital required was obtained through the sale of bonds. Annual interest charges and principal repayments must now be met, and one objective of the Foundation is to provide the funds to meet these charges.

Another immediate aim is to increase the number and amount of scholarships and bursaries to deserving boys, in order to obtain a cross section of students of leadership calibre from all income groups.

I have mentioned only two objectives; there are more, but these are the most urgent.

Now, where will the funds come from?

The Foundation has been set up to provide for membership on the widest possible scale. Annual giving in the form of membership fees, which are deductible for income tax purposes, is being given primary emphasis, because we believe this permits participation by the greatest number of friends of the College — no matter what their means. It is also urged that everyone give serious consideration to arranging a bequest to the College in their wills. An organization is presently being built up to assist the Foundation in raising funds from every possible source. Ladies and gentlemen, it is obvious that each one of us who believes in St. Andrew's must play a part in achieving our goals.

The role of the independent school was never more important than it is today, with the demand for men of leadership calibre becoming more and more urgent. Such men develop in the climate of the free enterprise system. Such men have been produced by the independent schools in Canada since their first appearance — and St. Andrew's College has certainly contributed its share. Let us be sure it has the means to continue doing so".

Space does not permit recording all the prize winners here, but the complete list was published in this year's "Review", copies of which are available on request for anyone interested.

## NOTE:

Classes of membership in the St. Andrew's College Foundation are:

1. **ANNUAL** — An annual donation not sufficient to qualify for an Honorary Trustee or Sustaining membership.

2. **HONORARY TRUSTEE** — A donation of \$500 or more by an individual, corporation, or foundation.

3. **SUSTAINING** — An annual donation not less than \$50.

For those interested in arranging a bequest to the Foundation, the Executive Director will gladly supply suggested clauses for insertion in wills, or provide any other assistance. Please address all enquiries to him at the College in Aurora.

Membership is now open! Just send in your cheque and a receipt for income tax purposes will be sent promptly.

## GREAT HALL CHAIRS

Quite a few Old Boys have enquired whether Great Hall chairs are still available for inscription. The answer is yes, and the School will welcome further requests. You will remember the project was started in 1963 and has proven popular as we now have the names of 47 Old Boys and Masters perpetuated in this manner.

The Great Hall is one of the finest buildings on the campus, being the centre of daily activity and is one place that nearly all Old Boys and parents visit when they come back to the School.

You can donate a chair inscribed with your name or the name of any Old Boy, master or Governor you designate. There is a choice of two types, either the Head Table upholstered chair at \$500 to carry the name of a master or Governor, past or present, or the Student chair at \$100. Donations will be acknowledged with a receipt from the St. Andrew's College Foundation which will qualify for deduction from income tax, too. Thus your donation will fulfill a twofold purpose of contributing to Foundation funds, and providing a lasting reminder of your generosity and support of St. Andrew's.

## ATHLETICS

During the very short Spring term this year, a tremendous amount of athletic activity took place — involving virtually every boy in the School and the Staff. Here are the highlights —

**CRICKET** — The First Team LBF schedule was crowded into a period of eight days and the School ended in second place, behind Ridley and TCS who finished in a tie for first. The first game against U.C.C. was a real cliffhanger with St. Andrew's winning by one run hit by Dougall on the last ball of the last over before stumps were to be drawn! David Love won the Cricket Bat award and compiled an outstanding record by being out only once in 2 years of LBF competition. The Seconds (popularly known as "The Mets", for obvious reasons) played 4 games — winning 1, losing 2 and drawing 1. The Under 15 A & B Elevens were just fair — enough said.

On May 16th, the School got its revenge for the defeat in Hockey administered by the Old Boys, when the First Team walloped the Old Boys cricket team 89 to 24. Being a cool and murky Sunday in the middle of a holiday weekend, maybe the OB's eyesight wasn't too good, but let's give them full marks for turning out.

**RUGGER** — With the inspiring enthusiasm and coaching of Mr. Stoaite, rugger hit an all-time high in interest and participation at St. Andrew's during the Spring term. The Senior team went unbeaten and unscored upon right up to its final game in the Ontario Rugger Championships, which they lost by the close score 3-0. The Juniors, too, acquitted themselves well, losing out only in the semi-finals.

**TENNIS** — George Dangerfield from Barrie won the Senior Singles and combined with Robert Jones of Barbados to win the Senior Doubles.

**TRACK & FIELD** — With the limited time available, track and field activity had to take second place to the other sports, but spirited competition took place in the annual meet. Douglas Clan far outstripped its three other challengers to win the Clan Championship. Cameron Clark of Toronto took the Senior championship, Michael Barrett the Intermediate, and Robin Brownrigg achieved some kind of a record in the Junior by winning 8 out of 9 events, as did John Jordon in taking 7 out of 8 in the Juvenile class.

**CROSS COUNTRY** — Murray Shields established a new record of 17.34 in winning the Senior Cross Country, and Tom Brooke took the honours in the Junior.

**LOWER SCHOOL AWARDS** — The MacMillan Trophy for best all around athlete in the Lower School was won by Tom Gilchrist of Toronto.

**ATHLETIC "A"** — Congratulations go to Jim McKeen from Harrow, Ontario, for winning an Athletic "A". Jim had First Colours in Football, Hockey and Track & Field. In the latter, he established new School records in the discus and pole vault. For the benefit of some "older" Old Boys, winning an Athletic "A" is an exceptional performance because colours are not awarded merely for being a member of the First Team, but must be earned by making an outstanding contribution to the team.

## STAFF NEWS

There are a few changes in staff this year and we know that Old Boys like to be kept up-to-date about them.

AUB HOLMES, after 17 years devoted service to the School as Athletic Director and Chief Instructor of Cadet Corps, has moved to British Columbia.

BOB SCOTT, in order to be closer to sources of research for writing his thesis in dramatics, has become a member of the staff of Upper Canada College.

JIM JENSEN has left to pursue post-graduate studies at university in London, England.

CHRIS ALLWORTH, who was in charge of music last year, has returned to Mount Allison University for post-graduate work.

RAJ RAJBALLIE has returned to the University of Alberta, after filling in for a year for Dick Gibb.

Five new masters (an increase of one over last year) are on the job and taking an active part in extra-curricular activities as well as their academic subjects.

RONALD D. KINNEY, with a B.A. and B.P.H.E. from Queen's, is a new member of the Physical Education staff. Ron played senior intercollegiate hockey for the past three years.

GERALD F. REDING, the Canadian composer-conductor, is our new Director of Music and has introduced instrumental music in Grades 7 to 10 with electives in 11 to 13. He is building a symphonic band, male

chorus and Kenton style dance orchestra. Gerald has wide experience in radio, TV and theatre and is a graduate in music education of U. of T., the Royal Conservatory, and is a Fellow of Trinity College, U. of London, England.

ALISDAIR S. R. SKINNER becomes the second Skinner on our staff. From Scotland, Alisdair taught in Montreal last year, after obtaining an M.A. in Honour English from St. Andrew's University and Diploma in Education from the University of Edinburgh.

F. ANDREW STAHL, B.A. (Duke University), B.D. (McGill), and L.Th. (Montreal Diocesan College), is teaching Religious Knowledge and History.

ROBERT W. WILSON, from University School, Victoria, B.C., where he spent 7 years, will divide his time between teaching Geography and English, and as Chief Instructor of Cadet Corps. In addition to obtaining his M.A. at Oxford, Rob was a "Double Blue" in Rugger and Cricket.

DICK GIBB, as mentioned above, has returned to the School following a sabbatical year at O.C.E.

"BOB" LAIDLAW has not been well, we are sorry to report. Undergoing surgery in August for a kidney condition, Bob has made a good recovery and is now recuperating at St. John's Convalescent Hospital, 285 Cummer Avenue, Willowdale. We're sure he would enjoy hearing from his many friends.

### W. N. HOVEY

It is with much sorrow and a deep sense of loss that we record the sudden death of William Nisbet Hovey, of the Board of Governors of St. Andrew's, on May 28th, 1965. As a member of the Board from 1959, and as a Trustee and Chairman of the Investment Committee of the St. Andrew's College Foundation, Bill Hovey contributed generously of his time and tireless energy to the affairs of the School. The School is particularly grateful for the prominent part he played in the Building and Scholarship Campaign of 1960, when he was Chairman of the Parents Division.

Born in Clinton, Ontario, and educated at Clinton Collegiate Institute and Trinity College, Toronto, he maintained a life-long interest in education. After service overseas in World War II with the 48th Highlanders and the Princess Louise Dragoon Guards, retiring as a Lieutenant Colonel, he returned to the investment business, becoming President of Equitable Securities of Canada, Ltd., Equitable Brokers Ltd., and Director of many companies. Mr. Hovey was also a Member of the Corporation of Trinity College, and a Past President of the Toronto Hunt Club.

To his wife, Sybil, and his son, Christopher, an Old Boy and former Head Prefect of the School, the And- rean extends sincere sympathy.

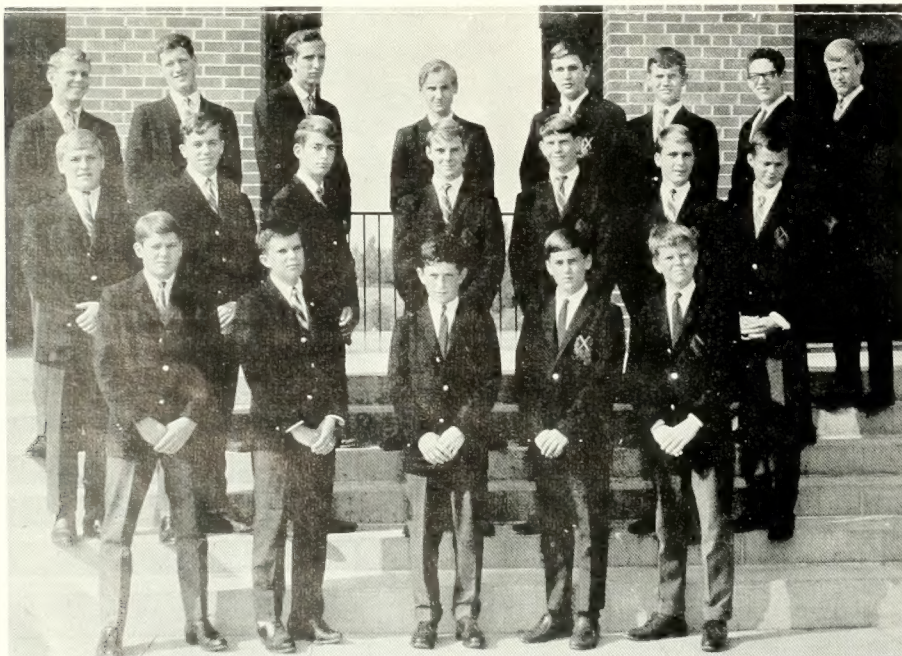

### W. FRASER GRANT '09-'15

W. G. Fraser Grant, Q.C., passed away in Toronto on July 10, 1965. In addition to being an Old Boy of St. Andrew's, he devotedly served on the Board of Governors from 1940 to 1958, latterly as a member of the Executive Committee.

On leaving St. Andrew's, Mr. Grant went overseas with the Canadian Field Artillery and served from 1917 to 1919 with the Royal Flying Corps. He then attended University of Toronto and Osgoode Hall, being called to the bar with honours in 1921. Always having a strong interest in youth and the independent school, Fraser Grant was a member of the Board of Governors of Crescent School as well as St. Andrew's, and in a quiet way, provided financial assistance to many young people in furthering their education. He was also a Past Master of Harcourt Lodge in the Masonic Order, and President of the Toronto Humane Society for several years.

We wish to express our sympathy to Mrs. Grant and to his son, Dr. Fraser Grant of the University of Toronto and an Old Boy of the School.
